## THE ROBUSO regrounding service

### We are pleased that you are interested in or have decided to use our regrounding service!

The procedure is -like our products- user-friendly and simple to implement.

To use the regrounding service, simply send your scissors/machine blades to the following address:

ROBUSO  
Stahlwarenfabrik Buntenbach & Sohn GmbH  
Gleisdreieck 13  
42651 Solingen

We would like to ask you to include a covering letter stating what is to be done with the scissors, so that the goods entrance department can guarantee a quick allocation and finally the ROBUSO company can guarantee a quick processing.

You are welcome to use the form provided for download, which you can easily fill out and print out on your letterhead.

After successful processing, the goods are checked, cleaned, packed and can finally be sent on their way.

For this purpose, the shipment is then finally recorded in our system and the necessary delivery note and invoice are generated.

The costs of the regrounding service depend on the size of the scissors (total length) and the respective freight costs (depending on the total weight of the box/scissors).

Total length of the scissors in inches	Cost per piece/ net (excl. VAT)	Cost per piece/ gross (incl. VAT)
Scissors up to 6" as well as, if applicable serrating	9,75 €	11,60 €
Scissors 7" + 8" as well as, if applicable serrating	13,40 €	15,95 €
Scissors 9" + 10" as well as, if applicable serrating	17,05 €	20,29 €
Scissors from 11" as well as, if applicable serrating	20,85 €	24,81 €
Providing the 1075 model with new blades	62,10 €/ scissors	73,90 € /scissors
Exceptions are ARS scissors and the exchange of Swissors blades - please ask us!		

If you have any further questions, please do not hesitate to contact our sales team.
